OFFICE OF THE PRESIDENT & CEO

We often provide information on our advertising successes and sales opportunities. In this issue, I wanted to share with you the significant value that OTMPC provides through the efforts of its Media Relations Team. For fiscal 2003-2004, the total value of media activity was **\$82.2 million**. This represents substantial results during a very difficult year.

Congratulations to our team and the many tourism operators from across Ontario whose assistance was a significant factor in our media successes!

A newly launched "out of the box" campaign is "Muskoka Golf Magic" which features golf packages and Doug Gilmore. The online contest on ontariotravel.net allows package winners to join in a golf tournament with our Hockey Heroes! In partnership with our industry colleagues, we will continue to develop innovative and aggressive marketing campaigns to motivate travel to Ontario.

As Fall approaches, we are undertaking focus group research to better understand our challenges in the U.S. border markets. The 3rd wave of travel intentions research (May/Aug. 2004) showed Americans intent to take an overnight trip during the coming 12-month period was down in May versus previous waves of tracking. The U.S. markets continue to be a challenge.

TOURISM REVITALIZATION PROGRAM 2003-2004 RESULTS

On April 29, 2003, just hours after the World Health Organization had announced that its travel advisory on Toronto would be lifted, the Government of Ontario announced a **2-year \$128 million Tourism Recovery Program**, with the objective of rebuilding global confidence in Toronto, and Ontario as a world-class vacation destination and stimulating tourism.

The OTMPC played an integral role in making it possible for the TRP to be delivered in a timely and efficient manner. Not only did the OTMPC assume responsibility for the delivery of Tourism Revitalization (April 2004 program name changed for Tourism Recovery Program) advertising but the corporation supported the delivery of several of the various TRP components by assisting the Tourism Revitalization Office through administrative support that significantly increased the ability of the TRO to be responsive to the needs of tourism stakeholders.

The following are the **YEAR ONE** results of the Tourism Recovery Program (TRP) analysis and the impact it had on Ontario's tourism industry. PKF Consulting selected July 2003 as the initial month for incremental estimation purposes because it is the first month in which impacts of TRP funding were expected to be felt in the marketplace. Estimates cover July 2003 through March 2004, inclusive.

Key findings of the report indicated that between July 2003 and March 2004 the Tourism Recovery Program provided support for enhanced marketing campaigns for tourism events, destinations, cultural attractions and convention development activities in the province.

The following table provides a summary of the benefits attributed to the various TRP investments that had been fully completed during the July 2003 to March 2004 period for the GTA, Non-GTA and the total for the Province of Ontario.

Region	Funding \$'s Spent as of March 31, 2004	Total Recovered Spend	ROI in \$'s
GTA	\$36.2 Million	\$284.5 Million	\$7.86
Other Ontario	\$26.3 Million	\$402.1 Million	\$15.30
Total Ontario	\$62.5 Million	\$686.6 Million	\$11.00

Each dollar, which was spent on the Tourism Recovery Program from July 2003 up to March 31, 2004, generated a return of \$11.00 in tourist spending in Ontario.

The full criteria for TRP is available at www.tourismpartners.com and the office can be reached directly at 416-212-6754. For more information about Tourism and Economic Revitalization in Ontario, visit www.tourism.gov.on.ca/english/about/revitalization.htm for full program criteria and guidelines.
